

WHY YOU SHOULD HAVE FLOOD INSURANCE PROTECTION

- Everyone lives in a flood zone- it is just a question of whether you live in a low, moderate, or high risk area.
- Nearly 25% of all flood claims are for properties located in lower-risk flood areas or those property locations where flooding is not expected.
- Changing weather patterns as well as residential and business development may increase your chances of experiencing a flood loss.
- Your homeowner's or personal property policy does not include coverage for damage caused by flooding.
